Experience

Junior Application Developer, VigiTrust
Dublin City — August 2016 - Current

Delivering tailored solutions that enable organisations to achieve and maintain compliance with legal, industrial and security standards and frameworks. This includes data protection, data transfer and retention, Protected Health Information (PHI) and Payment Card Industry Data Security Standard (PCI DSS), ISO 27001 compliance programs and corporate governance.

Roles and Responsibilities
- Development and maintenance of client specific cloud based eLearning programs and security compliance portals, delivered via our PHP driven web applications.
- Working alongside an exceptional development team employing a full stack of web technologies to deliver our unique solutions.
- Building internal software to help remove obstacles and maximise the productivity of VigiTrust team.
- Supporting the full development lifecycle of multiple products.
- Evaluating, recommending and designing both real world and technical solutions.
- Constructively engaging with both the VigiTrust team and our clients to help achieve the goal of providing cyber security awareness and compliance.
- Professional engagement with numerous company stakeholders.

Sales Advisor, Arnotts
Dublin City — October 2012 - July 2015

Working as a sales assistant in Arnotts department store enable the enhancement and build upon many of my existing skills, including, product sales, team working and interpersonal skills, customer service, commercial awareness, working under pressure, responding to first aid incidents as well as many others.

Test Engineer Intern, Paddy Power
Dublin — June 2014 - September 2014

I was an active participating member of a highly successful, fast paced agile development team. The team focused on developing software for cross-platform applications such as mobile and tablet as well as the desktop site.

Roles and Responsibilities
- Partaking in all aspects of the agile team methodology.
- Ensuring the quality of the deployed products were of an exceptional quality.
- Develop strategies and scenarios to test the functionality and requirements of our applications.
- Thorough manual testing which required a high level of attention to detail and strong understanding of user experience.
- Consistent maintenance to ensure the upkeep of our software with continuous regression testing.
- Logging and tracking issues that were encountered while testing.
- Working in a multitude of different testing and production environments.
- Verifying app functionality and bug fixes.
- Monitoring and testing analytics and crashlytics for our test and production applications.
- Close internal team and cross-team communication as well as constant conversation with other stakeholders.
- Frequent use and testing of our content management system (CMS).
- Using software such as Git, Stash, Jira, Confluence as well as a number of Microsoft Office applications to collaborate shared work and information.
- Assisting with the Kanban board when any extra support was required.

Retail Cashier, Paddy Power
Dublin City — June 2012 - September 2012

During my position as a retail cashier I improved on a number of existing skills and also developed new skills such as customer service, working under pressure, improved teamwork expertise, numeracy and use of the IT systems.

Education

IADT Dun Laoghaire
BSc (Honours) in Computing Multimedia Systems/Web Engineering — 2012 - 2016

Achieved 2.1 in my final year and an average GPA of 3.25 over the course of my four years.

Ballsbridge College of Further Education
FETAC (Level 5) Web Authoring and Multimedia Programming — 2011 - 2012

Distinction in all modules.

Occupational First Aid
FETAC (Level 5) Occupational First Aid — 2015

Recent Achievements

- Graduating with an honours degree in Multimedia Systems and Web Engineering from IADT Dun Laoghaire.
- Earning a FETAC certificate in 'Occupational First Aid'.
- Teaching the basic fundamentals of programming.
- Passing my driving test.
- Volunteering with Dublin Diocesan Pilgrimage to Lourdes.

Additional Information

As well as having keen interest in everything computer related, I live a sporty and social lifestyle and enjoy traveling and experiencing new cultures.
In relation to work I always try to build on my existing knowledge and skill set. This can range from developing websites for clients to independent learning and even teaching. I have taken a number of online courses and am an active member of various social and professional tech groups.
